

St Patricks Academy

St Patricks Academy is a school in Ireland. They have chosen to support us for the last two years. Finn is a pupil at the school and has been diagnosed with A-T. The school has organised an array of different events to help support the A-T Society allowing us to “be there” for families just like Finn’s.

St Patricks Academy have held a number of cake sales and a summer sports day to name a few of their events.
